HEI Appeal Explanation

We would like to appeal for a reconsideration of the verification outcome regarding the number of workshops, seminars, and conferences conducted on Research Methodology, Intellectual Property Rights (IPR), and entrepreneurship over the last five years. The revised numbers provided after the Data Validation and Verification (DVV) process show as 0. We respectfully submit the following justifications for our appeal:

1. Supporting Documents Provided:

The Higher Education Institution (HEI) had submitted all relevant supporting documents, including brochures, event schedules, attendance records, and reports, to validate the conducted workshops/seminars/conferences. A review of these documents confirms that the reported numbers align with the actual activities undertaken.

2. Re-Verification Request

Given that our institution has actively promoted research, intellectual property awareness, and entrepreneurial skills through various programs, we kindly request a Re-verification of the submitted data, taking into account all valid documentation and contextual relevance.

We appreciate the DVV process and remain committed to transparency and accuracy. We hope for a fair reconsideration of our submission based on the above explanations.
