25

#### After DVV:

Total MOUs
03

### HEI Appeal Explanation

We respectfully appeal for a reconsideration of the Data Validation and Verification (DVV) outcome regarding the number of functional Memorandums of Understanding (MoUs) and linkages established by our institution with national and international institutions/industries for internships, on-the-job training, project work, student/faculty exchange, and collaborative research over the last five years.

The revised number after DVV verification (03) is significantly lower than our revised submission (25). We provide the following justifications for our appeal:

#### **1. Submission of Supporting Documents:**

Our institution had submitted valid supporting documents, including signed copies of MoUs, activity reports, and proof of implementation.

#### **2. Functional Status of MoUs:**

All MoUs reported in our submission were not just signed agreements but also actively implemented through student internships, joint research projects, and industrial collaborations.

#### **3. Request for Re-verification:**

Given the importance of these MoUs in facilitating academic and professional growth for our students and faculty, we request a re-verification of our submission.

We appreciate the thorough verification process and remain committed to maintaining transparency and accuracy in our submissions. We hope for a fair reconsideration of our reported data.
