

ARAM EXCEL IAS ACADEMY

The importance of a mentor in the life of every student is contained in the maxim 'Maatha, Pithaa, Guru Deivam'. At Aram IAS Academy, every student is mentored by a tutor who guides and motivates him/her all through the period of preparation. Extensive mentoring sessions are assigned so that the candidate is well prepared to face any challenging problem or unexpected situation. They also have the possibility of contacting their teachers telephonically so that their doubts are clarified as and when they arise.

The dream of being a Civil Servant is brought within the reach by making the aspiration at the very beginning of the collegiate studies so that the trajectory is set with the teachers prepared to travel all along the way to reach the destination. Aram IAS Academy makes no differentiation between passed out students and students still on the role of various institutions. Many students continue to seek help even after completion of their course and there is a continuous follow up and a bonding with the tutors that leads to final success.
