#### **Awareness Rally Programme on World cancer day**

#### **Summary report**

This is to inform that, Excel Engineering College, Department of CSE conducting Awareness Rally on "World Cancer Day" to the public on 04-02-2022. Cancer awareness has become exceedingly important in the 21st century. While there have been numerous advancements in the understanding, diagnosis, and treatment of cancer—factors that should contribute to the decline of the disease—the number of new cancer cases diagnosed each year has globally continued to increase. There were 8.1 million new cases diagnosed in 1990, 10 million in 2000, 12.4 million in 2008, and 14.1 million in 2012. The number of annual deaths worldwide from cancer has also increased—from 5.2 million people in 1990 to 8.2 million people in 2012 to an estimated 9.6 million in 2018. According to the World Health Organization (WHO), if the incidence of cancer continues to grow at the reported rate, the number of deaths worldwide from cancer will increase to more than 16.3 million by 2040. However, also according to WHO, as many as 40 percent of deaths from cancer are preventable. As a result, raising awareness of cancer prevention has become a prominent goal of many cancer and health organizations around the world, and World Cancer Day has come to represent an annual reaffirmation of the importance of this goal.
