Accredited by NBA, NAAC with "A+" and Recognised by UGC (2f & 12B)

KOMARAPALAYAM - 637303

Department of CSE

## SUMMARY OF POINTS ON WEBINAR:

1. **Research:** Start your preparation by researching the companies you are sitting for. You may use the Internet for your primary research about the company. Connect with your seniors, family and friends who may be working or would have worked in the company you are interviewing for. You may also go through review sites like Glassdoor to get an understanding of the questions asked in previous interviews.
2. **Make that first impression:** Your resume is your opportunity to make that first impression. In a campus placement interview, it is important to have the right sort of resume as a recruiter has to go through a lot of similar resumes.
3. **Read about the company and the job profile:** It is recommended you understand the company and job description in advance for the interview that you are sitting for. This information usually helps a candidate to make the right answers and frame statements based on the need of the job role.
4. **Prepare for the aptitude test:** Most companies that visit engineering colleges and MBA colleges opt for the aptitude test to gauge the intellect of candidates. Aptitude test is one of the hurdles that you are required to clear before you could reach the next round in a campus interview.
5. **Understand interview questions:** Interview questions can be based on your profile and level of education. You may also be asked questions on any projects/internship/volunteer work you may have mentioned in your resume.
6. **Practice for group discussions and case studies:** Some companies start their campus placement interviews with group discussions and case studies. Some MBA jobs usually require you to lead, collaborate and drive a project. So, companies look for candidates who are comfortable in groups and can share their views confidently and get along with others without being brash or offensive.

Your communication skills will come to your help here. Work on your spoken English, if required. Speak slowly and think before you make a point.

7. **Be on time for your interview:** Since, a recruiter in a campus drive have to interview many candidates, make sure you are on time for your interview round.
8. **Dress to impress:** To make the right impression, dress for the occasion. The key lies in wearing something you are comfortable and confident in.

## **OBJECTIVE**

To seek a proper position and contribute my skills with good-problem solving ability and good inter personal-skills in network solutions for high-end global major in IT.

## **JOB PROFILE**

I have 3+ years of experience as Network and Desktop support Engineer and 2 years of experience as Technical Trainer, which includes knowledge of Networking and Server Operating Systems, Installation and Administration of Network and network oriented troubleshooting.

## **SKILLS SET**

Certification	: CCNA,MCSE, RHCE and AWS (Completed Courses)
Data Plane	: IPv4,IPv6, L2 Switching, NAT
Layer 3/4	: RIP, EIGRP,OSPF, BGP, VPN, DNS, DHCP
Layer 2	: Ethernet, HDLC, PPP, STP, RSTP, ARP
Windows Server	: Active Directory,DNS,DHCP,IIS,FTP,GPO
Linux Server	: Managing Linux Files and users, Linux Networking

## **PROFESSIONAL CERTIFICATION**

Red Hat Certified System Administrator (RHCSA)

NSDC Certified Trainer in Field Technician and Computer Peripherals

## **ROLES AND RESPONSIBILITIES HANDLED**

- Planning, Designing and implementing LAN.
- Configuring and Administrating Modem, Routers and Wireless devices.
- Installation of IP & Analog Surveillance Products and RF.
- Installation, Configuration and Administration of CISCO Routers and Switches.
- Troubleshooting of complex LAN/WAN infrastructure, Including routing protocol Maintaining Server and Network related troubleshooting.
- Installation, Configuration and Administration of Windows Server 2012, Active Directory, DNS,FTP,IIS,DHCP,GPO,File server,Multi domain functions.
- Maintain all network and Sever documentation for hardware and licensing.

## PROFESSIONAL EXPERIENCE

FreeLancer-Technical Trainer & Network Engineer

Duration: January 2020 to Till

- Create and maintain our technical training environment.
- Work with managers to determine employee training needs and develop effective training programs.
- Train Technical course to students (N+, CCNA, MCSE, REDHAT, CLOUD...)
- Designed and developed technical training programs and syllabus.
- Maintain company Network and System Administrator.

Technical Trainer

**ROOMAN TECHNOLOGIES, Chennai**

Duration: December 2018 to January 2020

- Create and maintain our technical training environment.
- Train Technical course to students (A+, N+, CCNA, MCSE...)
- Prepared training syllabus and instructional contents.
- Maintain company Network and System Administrator.

Network Engineer

**DESVO TECH SOLUTIONS, Erode**

Duration: January 2017 to November 2018

- Implemented LAN/WAN technologies.
- Installation and configuration of router, modem, workstations, printers.
- Installation and configuration of Windows server 2008/2012.
- Installation and configuration of CCTV surveillance.
- Installation and configuration of wireless devices(AP,RF)

Network Engineer

**ZIGMA COMPUTER LINKS, Erode**

Duration: November 2013 to December 2014

- Implemented LAN/WAN technologies on various companies.
- Design and Implemented LAN connections.
- Installation and configuration of CCTV.
- Installing and updating system related software and applications.
- Maintain company Network and System Administrator.

### EDUCATIONAL QUALIFICATION

Course	Institution	Year Of passing	Aggregate
B.E (CSE)	Nandha Engineering College- Erode.	2013	7.7/10 (CGPA)
DCSE	Konghu Vellur Polytechnic College-Erode.	2010	81%
H.S.C	Sengunthar Higher Secondary School-Erode.	2008	70%
S.S.L.C	Sengunthar Higher Secondary School-Erode.	2006	81%

### SUMMARY

- Capable of picking up new technologies with a minimum learning curve.
- Involved in getting requirements gathering, interaction with client, change requests, and production support.
- Key skills include resolving issues proactively and problem solving.
- Ability to manage projects, possess good interpersonal and analytical skills and a strong team player.

### PERSONAL DETAILS

Name : G.ARAVINDRAJ  
Date of birth : 11.02.1990  
Sex : Male  
Father's name : Mr.K.GUNASEKARAN  
Nationality : Indian  
Languages known : Tamil & English

## DEPARTMENT OF COMPUTER SCIENCE AND ENGINEERING

### SUMMARY REPORT

This is to inform that, Excel Engineering College, Department of Computer Science and Engineering conducted "**Workshop on Design Thinking**" on January 22.

A Design Thinking workshop seeks to create solutions to challenges facing the business. However, the process is applicable to a wide range of obstacles facing individuals and teams. These challenges might be related to product development, team collaboration, recruitment or retention, reaching targets, as well as any number of issues that are preventing a company from reaching its goals.

A Design Thinking workshop seeks to overcome these challenges through a defined process that is designed to improve the problem-solving skills of the team, facilitate innovation, allocate time and space for significant collaboration between team members, build empathy, identify opportunities, define requirements, and develop ideas. It does this with a human-centric, prototype-driven approach to problem solving and innovation.

## EXCEL ENGINEERING COLLEGE

(Autonomous)

Approved by AICTE, New Delhi & Affiliated to Anna University, Chennai  
Accredited by NBA, NAAC with "A\*" and Recognised by UGC (2f & 12B)  
KOMARAPALAYAM - 637303

### SUMMARY REPORT

This is to inform that, Excel Engineering College, Department of Computer Science and Engineering conducted **"WEB SERVICES AND MACHINE LEARNING TECHNIQUES"** on 06.08.2022, all students and faculty members attended the programme and gained knowledge about the web services and machine learning techniques.

The Session was more interested and interactive, students asked many questions regarding the presentation and get cleared their doubts. They learnt current technology on Web services and Machine learning. Machine learning technologies supervised learning, which trains a model on known input and output data so that it can predict future outputs, and unsupervised learning, which finds hidden patterns or intrinsic structures in input data.

Web services are XML-based information exchange systems that use the Internet for direct application-to-application interaction. These systems can include programs, objects, messages, or documents. Machine Learning methods can also be used for web applications to learn client activity and improve user experience. To track and interpret consumer interactions associated with an item, and e-commerce website system can use a Machine Learning algorithm.
