## Swachh Bharat Mission- Sapling Plantation Programme:

Swachh Bharat or Swachh Bharat Abhiyan Campaign Clean India is a national level campaign by the Government of India covering 4041 statutory towns to clean the streets, roads and infrastructure of the country. To accelerate the efforts to achieve universal sanitation coverage and to put the focus on sanitation, the Prime Minister of India had launched the Swachh Bharat Mission on 2nd October 2014.

Saplings are young trees. Plant the sapling and gently remove the plastic wrapping, place the plant gently into the centre of the pit and water the plants gently. This process has been repeated till destiny. This programme aims to bring sanitation facilities including toilets to every rural family and to improve and promote solid waste management, creating awareness and bringing about behavioural changes in people towards adopting healthy and sanitation practices and providing safe drinking water.

## Awareness Rally Programme on Donating organs (World Organ Donation Day):

Our Department of Information Technology conducted "Awareness Programme on Donating organs" on 13.08.2022 along with Department of Information Technology. We aimed to assess the attitude and awareness regarding organ donation in a selected adult population in Pallipalayam. The fact that organs have to be harvested immediately after death is known to most of the participants. This will prevent them from wasting precious time to harvest organs in case of death of a donor. The encouraging finding is that 72% of the participants were willing to donate their organs. However, the awareness regarding cadaveric kidney donation was very low which a matter of concern is. There is high level of awareness about eye and kidney donation, but the awareness about other organ donation is poor. The awareness about eligible donors and the timing of organ donation is also high. Almost all the subjects were willing for eye donation, while two-thirds were unwilling to donate solid organs due to perceived risks and family pressure. This needs to be addressed through awareness campaigns in the community and also popularized during their contact with the health system.

## Awareness Rally Programme on Mobile radiation

Rally has been initiated to make awareness with public that a cell phone emit low levels of non-ionizing radiation when it is in use. The type of radiation emitted by cell phones is also referred to as radio frequency energy.

Both cell phones and cordless phones use radio frequency, radiation that sends signals, avoid making calls when the signal is weak, as this causes cell phones to boost radio frequency transmission power. Consider texting rather than talking but don't text while you are in driving.

This rally creates awareness on usage of cell phones, so that it reduces radiation and everyone might enjoy powering down and enjoying the non-digital aspects of life!
