## Online Grievance Redressal Mechanism

### **Need:**

- To ensure a fair, impartial and consistent mechanism for redressal of varied issues faced by the stakeholders
- To uphold the dignity of the University by promoting cordial Student-Student relationship, Student-teacher relationship, teacher-teacher relationship
- To develop a responsive and accountable attitude among the stakeholders, thereby maintaining a harmonious atmosphere in the University campus
- To ensure that grievances are resolved promptly, objectively and with sensitivity and in complete confidentiality
- To ensure that the views of each grievant and respondent are respected and that any party to a grievance is neither discriminated against nor victimized
- To advise stakeholders to respect the right and dignity of one another and not to behave in a vindictive manner towards any of them for any reason.

### **DEFINITIONS:**

**Grievance:** Grievance means a formal complaint—includes any kind of content or dissatisfaction or negative perception, whether expressed or not, arising out of anything connected with University that a student or parent or staff member thinks, believes, or even feels, is unfair, unjust or inequitable.

**Grievant:** Grievant means a student, parent, staff member or group of students or parents or staff members submitting the grievance.

**Days:** Days means working days exclusive of Sundays, holidays or vacation days as set forth in the academic calendar. In counting days, the first day shall be the first full working day following the receipt of the grievance.

### **Analysis and Prevention:**

Grievances are viewed as free inputs to understand the expectations of service recipients better and initiate systemic reforms to meet those expectations. All Bureaus therefore must analyze why they are receiving particular types of grievances more frequently

than others. Such grievance prone areas need to be identified and analyzed for bringing about necessary changes proactively.

**Level of Responsibility for Redressal:**

In order to ensure that grievances are addressed within the prescribed time norms, the Grievance Redressal Mechanism should define the levels of responsibility for redress of each category of grievances and their time norms. In case the grievance is not redressed at a particular defined level then an avenue should be available to the complainant to approach the next higher authority. The responsible officials at each level alert their next superior official well in time if a grievance is likely to exceed the prescribed time norm. The next higher authority should call for a report to redress escalated grievances.
