<b>No. of Participants</b>	: 24 Students + 1 Staff

*"Seeking knowledge is like opening doors."*

Conference is an important event where sharing and gaining of knowledge takes place. This time, we have got an opportunity to attend a national scientific seminar named "**Organum-2022**" at Kozhikode, Kerala. This is the first time we are going to attend a conference.

On approaching our Principal and Class co-ordinator about the permission, they readily permitted us to attend the conference. 24 students from II<sup>nd</sup> BHMS were willing to attend the conference and we registered our names. A small bus was arranged for the trip.

We, a team of 24 students with our staff **Dr.Venkatesh** started to Kozhikode on November 12, 2022 at 6.30am. As usual, the trip was awesome with music.

We reached the Beypore Beach at 5.00pm. The beach view was splendid. The weather was cloudy and cool. We enjoyed the breeze and waves of the beach. Then, we went to S.M.Street for purchasing. After finishing it, we checked in our rooms at Hotel Safa Tourist Home, Kozhikode. We had our dinner and took rest.

Next day morning, we had our breakfast and started to the conference venue at 8.30am. It took around half

an hour to reach the venue. It was located on a small hillock. The building looked awesome.

As we entered the venue, there were many stalls of various homoeopathic pharmaceuticals like Hering, Similia. Then, for all the participants, they issued a file. It had a notepad, pen, ID card, Lucky dip chit, Lunch token, mask and certificate.

We went inside the hall. The session started and was hosted by **IHMA Kozhikode**. The speaker of the day was **Dr.Saptarishi Banerjæ**. He is a homoeopathic practitioner and wonderful speaker. The topic was 'Behavioural disorders in children'. He depicted the drug pictures of certain remedies particularly the childhood. It included uncommonly used drugs like *Cenchrus contortrix*, *Aragallus lamberti* . He told us the effects of events during pregnancy on the infant. Then, we had our refreshment. After then, he presented some of his paediatrics cases like Cystic hygroma. Also, he explained the remedies used to treat ADHD (*Attention Deficit Hyperactive Disorder*). He added that the reaction of the patient to

the circumstances causes the manifestations. The feast of the noon was superb.

There was business session from 2.00pm to 2.30pm after which, the inaugural function started. It was inaugurated by guests like Balussery MLA Mr.Sachin Dev, GHMC, Kozhikode, Principal, Dr.Abdul Hameed, IHMA President Dr.Shaji kutty and other dignitaries.

Again, the session was handed over to Dr.Saptarishi Banarjaj. This time,

he handled the topic 'Paediatric Dermatology'. He discussed with us how he treated his paediatric cases. It was so interesting to know about the drugs. Knowing the drugs in a different method was so new to us. It was so effective.

After the session was over, we went back to our rooms and checked out. We started back to our college at 5.30pm. We reached our college at 1.30am.

We would like to express our heartfelt gratitude to our Principal and other staffs who supported us in every way they could.

*"Learning is a never-ending process. It continues forever."*
