I have often noticed that people forget their quarrels and rivalry with the passage of time. That is something positive and appreciable. But it cannot be applied to the studies you do in various courses. Once an interviewer finds out that you have majored in a particular stream, you are sure to get a generic question about that field and you are expected to be specific in your answer, if you want to impress your interviewer. All cannot excel in every field. Similarly, you may not be a success in all what you do. Mistakes are bound to happen. But here is where your God given memory power should be put to good use. Fail in the exam, but learn the lesson. Remember that each and every person who has succeeded in life has done it by learning the lesson even after the initial projects were utter failures.

I wish that this year 2023–24 be the best for you by way of having gathered experience from your mistakes, from the truancy of climatic conditions, from unexpected disasters like the pandemic and the heavy target laid on you with limited time to catch up; but with a determination on your forehead that you can and you will make it...

SITE -VISIT

Our Excel Polytechnic College Site Visit: "FLOOR CONCRETE" at third floor B3 block on 25th July 2024. The students were learned from our college site about floor concrete work. Key Learnings: Mixing concrete using a ready-mix concrete (RMC) plant, Proper techniques for pouring concrete, Concrete pouring at a height (3rd floor) and materials needed for compaction, Reinforcement details for one-way slabs, two-way slabs, columns, beams, and electrical wire laying, Explanation of shuttering work, Concrete Strength Testing: Concrete samples were taken for compressive strength testing, Mould sizes: 150mm x 150mm x 100mm x 100mm, The Involvement of 3rd civil 22 students and 2 faculty members.

INDUSTRIAL VISIT

On 26th July 2024 A group of students had the opportunities to participated in an industrial visit to erode STEM Park and Texvalley. During the visit, students experienced a highlighted the science park & Stem Park at Erode. It promotes science and technology among the students understands the scientific principles. This valuable experience provided insight ful into the learing programme especially for under represented students, encouraging diverse carrier pathway. Texvalley, a textile trading market center, supports South India's textile trade. Students explored business objectives, policies, and their alignment with the environment. There are 235 students and 11 faculty members were participated and befitted this industrial visit.

On 27th July 2024 a group of students had the opportunities to visit industry in Pandiyan Industries at coimbatore .During the visit, students experienced a highly demanded Electrical Panel and AMC Service. which includes best in class Control Panel, Electrical Panel and Electrical Panel Board. Which indeed inspires us to garner the challenging specifications of the Domestic, Agricultural and industrial segments. And learned about the values of quality and safety earned us the capability to set bench marking standards in manufacturing that reflects in our offered control panels that were widely demanded for its sturdy construction, easy installation, shock proof assembly, durable service life, and cost and energy efficient performance. There are 83 students and 5 faculty members were participated and befitted to this industrial visit.

On 24th July A group of students had the opportunities to participate in an industrial visit to Coimbatore IATOME electric pvt Ltd. During the visit, students experienced the design principles of Xray machines and understand the concept of Xray tube Generator including control system and imaging components. This valuable experience provided the learning program of construction and function of Xray tubes. Exploring the different types of Xray Tubes and their specifications. There are 54 students and 3 Faculty members were participated and benefited to this Industrial visit.

On 27th July A group of students had the opportunities to visit industry in Gudimangalam, Pollachi Wind care India Pvt limited. During the visit, students experienced insights of energy conversion process. It promotes Science and technology among the students . This experience provided the students to learn about the renewable sources and utilization of this energy. This visit encouraging the students in a diverse carrier pathway. May This visit also gave learning about production, collection and distribution of Electricity. There are 89 students and 4 faculty members were participated and benifitted to this industrial visit.

Mechanical Department organized A One Day Workshop on Hands-on Training at 31st July 2024 at Palaniyappar hall title covered as "Emerging Trends Cad Technologies". Points were discussed in the program Recent trends in cad technologies,Basic flow design and product devolpment cycle management. Design modeling, part modeling software like "AUTO CAD, SOLID WORKS, CATIA CREO" and AUTOCAD application, software and its demo classes were attended for 150 students and 5 faculty members and also students were benefited to this Interesting program.
