## Hon. Chairman's **MESSAGE**

**PROF. Dr. A.K. NATESAN**

I have often noticed that people forget their quarrels and rivalry with the passage of time. That is something positive and appreciable. But it cannot be applied to the studies you do in various courses. Once an interviewer finds out that you have majored in a particular stream, you are sure to get a generic question about that field and you are expected to be specific in your answer, if you want to impress your interviewer. All cannot excel in every field. Similarly, you may not be a success in all what you do. Mistakes are bound to happen. But here is where your God given memory power should be put to good use. Fail in the exam, but learn the lesson. Remember that each and every person who has succeeded in life has done it by learning the lesson even after the initial projects were utter failures.

I wish that this year 2024–25 be the best for you by way of having gathered experience from your mistakes, from the truancy of climatic conditions, from unexpected disasters like the pandemic and the heavy target laid on you with limited time to catch up; but with a determination on your forehead that you can and you will make it...
